

IMPROVING PEOPLE'S LIVES

Sunrise Medical is a world leader in the development, design, manufacture and distribution of manual and powered wheelchairs, mobility scooters and both standard and customized seating and positioning systems. Sunrise Medical manufactures products in our own facilities in the Germany, United States, United Kingdom, Spain, Netherlands, Poland, Mexico and China. Our key products are sold through a network of homecare medical product dealers or distributors in over 130 countries. The company employs 2,300 associates worldwide. Sunrise Medical's headquarters are based in Malsch, Germany. We're looking for people who care about our customers, our products, our company, and one another. Are you ready to join a team whose mission is to improve people's lives?

SENIOR ELECTRONICS ENGINEER (M/F/D)

YOUR TASKS:

- // Design and development of functional and embedded firmware applications
- // Analysis of errors and continuous improvement of existing software based products
- // Thorough documentation including verification and validation documents, binary files, and revision history
